Narrative: See, click, fix online report -

I am writing to formally lodge a complaint regarding a damaged vehicle that has been improperly parked on my street for approximately two months. The vehicle in question is covered with a tarp and is located on the wrong side of the

street. Moreover, it is partially parked on my property, which is causing significant inconvenience and obstruction.

Due to the vehicle's placement, my hired landscaper has been unable to properly maintain my property. The obstruction has led to overgrowth and an untidy appearance, which affects not only the aesthetic of my home but also the neighborhood.

I kindly request that the city takes immediate action to address this issue. The vehicle should be either towed or relocated to a proper parking spot to allow me and my landscaper to access and maintain my property without hindrance.

Attached to this complaint, I have included photographs of the vehicle and its current position relative to my property for your reference. I appreciate your prompt attention to this matter and look forward to a swift resolution.

Thank you for your understanding and cooperation.

## Narrative:

Arrived at location and did not observe any vehicles nor the one that was described in the complaint. Searched the surrounding area for the vehicle listed but was unable to locate it.
